Colgate® Optic White® Professional Take-Home Whitening Kit

Now available with all new whitening technology, Colgate® Optic White® Professional features a synergistic combination of a quick-dry whitening serum and a rechargeable LED whitening device. The patented formula is designed for no tooth sensitivity, no gum irritation, and no mess. The patented LED device accelerates whitening with a short 10-minute wear time. See dramatic results in just 5 days when used as directed. This new technology is easy to use, helping to support patient compliance, and is truly extraordinary whitening made simple.
